To whom it may Concern:

My name is Kai Sutherland, formerly Jodi Kesten..I was hired years ago , by Jen , as a armed security officer, to help protect person and property. This was in reaction to all the threats from her neighbors . I had witnessed and met the neighbors, as well that we're being very aggressive towards her and anyone that worked or came on property. They would also follow people of property , as well.

I was witness to the careless way her ex, Donny left drugs about the house. The marijuana and all the paraphernalia that went along with it, was left on a table of a game room. This.was.very easy for the children to get to. I also saw a refrigerator full of alcohol in next room, which would have been very easy for children to grab, thinking it was soda. Another time I went upstairs to gems and Donnie's bathroom and when I looked underneath Donnie's sink there was a mirror like tray with a white substance that looked to be cocaine. the last court date that Jen had I had testified and taking pictures of all of this to show the judge.

I also experienced along the years of knowing Jen and Donnie , the kids and everybody that came to work on the animal therapy ranch,4 Hands Ranch , I had noticed things were getting a little bit more strained between Jen and donnie. I was privy to several phone calls between them where I could hear Donnie screaming at Jen and belittling her and she would stay very calm and he was very threatening in his tone and what he was saying. soon after that I had come across Jen on the ranch and she had bruises I believe it was on her arms I don't remember if there was any other locations on her body they were black and blue and they were new bruising. I had asked her what had happened she told me that Donnie had kind of roughed her up in a situation I don't remember what exactly happened. she was extremely upset and crying I told her she needed to get restraining order against him she didn't listen to me because she wanted the relationship to work but in retrospect I don't think that it could have been save

Before I was the security officer I volunteered a little bit on the animal therapy ranch. I knew Jen to be very upbeat and sweet caring. She was very excited to get the animal therapy ranch moving forward. she seemed to be very very successful and she had a couple of therapists there working with children and the animals seem to be happy and healthy. it seemed that Donnie wanted Jen to be at the Bear mountain house where they took permanent residents more often than she was. she had just started off this animal therapy ranch so she put a lot of her blood sweat and tears into it and I think he might have been a little jealous. Donnie seemed to be very narcissistic and always wanted everything to be around him and what she was doing was not supported by him at all.

Jen have the kids on the ranch a lot cuz the kids love the animals. she loved her children immensely and was a incredibly attentive and sweet mother. there were times when there was meetings in the kitchen or meetings that we're pretty serious and and talking about the ranch and when one of the children came in they were her first priority all the time and everybody knew it.

thank you very much,  
Kai Sutherland
