

Amber Raven cole

(AKA)

Anderson, William, Donald Jr

During my short time knowing Jen at Dwct unit 3-D closed

I have personally witnessed a few things that have made me sick to my guts

such as on 1 occasion Capt. Mestas ordered staff to take her to the hole because she could not wheel herself to her room without help from an (OCA), Capt. Mestas

refused to let anyone assist Jen & ordered her to be handcuffed & that her legs be shackled even tho Jen was in a wheel-

-chair. ② on another instance Jen was denied a League visit by Capt. Mestas who refused to call for an (OCA) to take her. ③ At the time of me writing

this on 12/17/2022 Jen has not been allowed any access to a (ADA) wheelchair accessible shower in over 2 months & has also been

denied access to any physical therapy or proper medical care. She has told me many times that (Dwct) has ignored the recommendations

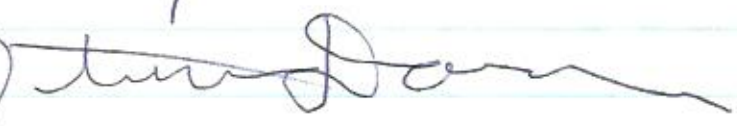

of outside providers & Dr's & refuse to give her blood thinners or heart meds as a result she has had a stroke. ④ I will testify in

a court of law to all this if need be as treating people like this is wrong & uncalled for & is inhumane in so many ways.

PS. To Who ever reads this
it should be made known
that captin -mestas shows favoritism
to select offenders & has shown
her self to be racist & predgadice
& also sexist to Trans gender people.
further more she regularly disrespects
her own coworker & has allowed
elderly offenders & others who are
handy caped or members of the Lgbtq+++
to be abused & harassed & even
sexually or violently asulted.

She has no business being in a
position of authority or priviledge
over people now /or ever &
It is my ~~blatant~~

Belief that a surprise &
indepth investigation should be
conducted as well as offenders & staff
should be interviewed asap for the
~~sake~~ sake & safety of everyone
who is at her mercy.

Raven (AKA)
